Total Amount Paid to Date

This is the total amount of payments made on your Nelnet-serviced account. Cancelled payments and payments made to a different servicer are not included in this total.

[Calculate My Total Amount Paid to Date](#)

Looking for a Recent Payment on a New Loan?

Payments you make within 120 days of the date funds were disbursed to your school are backdated to that date. This saves you money on interest and fees. These payments will have a payment date that matches the disbursement date. Generally, PLUS and Consolidation loans are not eligible for this benefit.

Looking for a Payment Made to Your Previous Servicer?

Payments made to a previous servicer are not shown here. They are provided as a document sent to your [Inbox](#) (if available).

Payment Processing

When making a payment, it can take up to two business days to be applied to your account. For Auto Debit payments, they will be applied using your due date as the effective date. For all other payments, the effective date is the date you selected when scheduling your payment. If you've recently made a payment, your account may appear as "Past Due," because of the time it takes for processing. Weekends and banking holidays may result in longer delays. We appreciate your patience.
