To Whom It May Concern:

My client would like to request a reduction in the amount of her wage levy each month. The current 25% is causing a hardship.

The hardship is due to her volatile & unsteady wages. Because she is a commissioned sales rep in the vacation industry, slow weeks & change of seasons greatly impact her pay.

In addition, she has her daughter & grandchild living with her, and for whom she provides at least partial support.

By reducing her levy to 15% would add a few months to the payoff date, but would still pay off the balance and will greatly help her in making ends meet, especially during slow months.

I can be reached at (423) 482-9737, if you have questions or require further information.

Sincerely,

David W Collins
