Dear DC TAX, LLC:

We would like to welcome you as a new Tennessee business. The Office of the Secretary of State has notified us of your recent qualification (SOS Control Number 001345102).

This letter provides information about your requirement to register with the Tennessee Department of Revenue so that you can file returns and pay certain taxes. To register your business for applicable taxes, please go to the Tennessee Taxpayer Access Point (TNTAP) here: www.tntap.tn.gov/eservices. Information about taxes in Tennessee is provided below:

Franchise & Excise Tax

As a business qualified by the Secretary of State to operate in Tennessee, you are required to register for and file a franchise and excise tax return each year. You must file the franchise and excise tax return annually, whether or not business is conducted in the state. The minimum franchise tax is \$100.

Sales and Use Tax

Your business may also need to register for collecting Tennessee sales and use tax. If your business will be involved in manufacturing, distributing, selling, renting, or leasing tangible personal property, or providing taxable services, you must hold a Tennessee Certificate of Registration.

Business Tax

Most businesses that sell tangible personal property or provide services in Tennessee are required to register for business tax. In addition to registering with the Department, new businesses must get a business license from the local government where the business is located. Contact the offices of the county and city clerk in each county and city where your business will be located to apply for the appropriate business licenses.

Other taxes

You may also be required to file other tax returns, depending on the type of business you are conducting. Please review our website to learn more about taxes the Department administers.

Please use the contact information at the bottom of this correspondence for any inquiries you have.
