Overview                        Sites                        Settings

# Welcome! Let's get started.

To use hCaptcha you will need a **Sitekey** and your **Account Secret**

1     Sitekey

Sitekeys are used to uniquely identify your site(s). We've already generated your first one: **d2da189f-b37b-4aad-9e34-068512ce4123**

You can specify captcha related settings per sitekey, such as challenge difficulty and preferred content based on site topics..

2     Secret

A secret is used to verify your hCaptcha account: **0x8aF80eBda2191426F58514aAd56D59ec06be688d**
